First-timers and disorganised writers who have the wisdom to invest in Hazel Edwards book of practical and structural advice on writing will learn how to harness their ideas and bring their story alive. Procrastinators and wimps will be whipped into shape, disciplined and become both organised and inspired. This book helps writers to winnow the grain from the chaff through editing their own words. Good new writing habits will be formed. Nuts and bolts of writing a synopsis or pitch, dealing with publishers and publicity are all here. And more. Written from Edwards many years of experience (200 + books published) this book is an excellent and essential guide.
