The most important information I found is the schedule. Plan the months ahead and write it down as you would your own diary. Chapter 6 "Settings and Place" is crucial reading particularly for Non-Fiction. The 20 questions for interviewees is brilliant and helps with context and information for your story. Hazel taught me Non-Fiction and because of her I am a published Author. I learnt about the importance of work shopping , editing and rewriting. Mainly never give up. A lot of her students are published Authors now. This book is a must have .
