Hazel's memoir 'Not Just a Piece of Cake – Being an Author, reveals how her quest to master the art of intrinsic motivation, so vital to a creative life, drove her career throughout her colourful life.

This open, honest and authentic account of her career is an inspiration and a gift to our country's future creative talents.

I thoroughly enjoyed her conversational format so consistent with Hazel's signature voice.

Hazel is a master at adding value to the hard copy format for her readers, due to the ease of returning to the conversation at any point that resonates with current musings. I love that I can always pick up her books and start reading from anywhere in the text. A true sign of an abstract creative thinker!
